

Database in the Grid: tools, middlewares and applications

Dr. Giuliano Taffoni,
Dr. Antonio Calanducci
DR. Roberto Barbera

Where are the chair's

Roberto Barbera

Antonio Calanducci

Giuliano Taffoni

Aim of the workshop

- integrate databases and databases technology in the grid environment
- two main audiences:
 - First the community of Grid DB access framework developers;
 - Second the audience comprises the Grid users. This includes current and potential users in various scientific areas.
- Meet and discuss
- Identify requirements and suggestions
